Offert par Salle de Spectacle .

- Ampli de Basse.
- Micros de Vocals. (3)
- Pieds de Micros. (3)
- Retours. (3)
- Tous XLRs and Prises de Courant.
- Boites DI (2)

Notes.

Percu de Pieds: Couper environ 500 et 1K avec un boost à 80. Pense au son du kickdrum Metallica.

Guitare: La Guitare a un output divisée. L'un des deux signales est un signal normal et l'autre est envoyé à travers une pedal d'octave. Le deuxième signal est ensuite envoyé à l'ampli de basse.

Input List.

- 1. Vocal (gauche)
- 2. Vocal (centre)
- 3. Vocal (droite)
- 4. Violon (XLR)
- 5. Percution de Pieds (courant phantome)
- 6. Caisse claire (courant phantome)
- 7. Bodhràn (courant phantome)
- 8. Guitar (DI + XLR)
- 9. Ampli de basse (DI + XLR)

Merci!

 - 9. Bass Amp (DI + XLR)

Notes.

Percu de Pieds: Cut around 500 and 1K with a nice boost at 80. Think Metallica Bass Drum.

Guitare: The guitar has 2 outputs. One will be a dry signal out to the PA via the pedal board and the other is fed through a octave pedal. The second signal is then fed through the bass amp. This will not be in use at all times.

Thank You!
